Product Overview

Professional Belt Grinding Solution

This robust belt grinding machine is designed for high-performance metalworking applications, including grinding, deburring, and finishing. Featuring a powerful 1500W motor and adjustable belt tensioning, it ensures precise results and efficient material removal across various metals. Its sturdy construction minimizes vibration, while integrated safety features like an emergency stop button and safety guard prioritize operator protection.

Technical Performance

Performance Highlights

1500 W
Motor Power

19 m/s
Belt Speed

100 mm
Belt Width

Voltage Compatibility

230V, 380V

Dimensions & Weight

Belt Size	100 x 1,220 mm
Machine Dimensions	610 x 390 x 330 mm
N.G./G.W. Weight	38/40 kg

Operational Features

Machine Capabilities

- Adjustable grinding belt tension
- Precision tracking mechanism
- Integrated dust collection port
- Emergency stop button
- Safety guard protection
- Sturdy frame for stability

Suitable Applications

Grinding • Deburring • Finishing • Surface Preparation
