Overview

High-Performance Belt Sander

This 1010W belt sander is engineered for efficient material removal and precise finishing across a variety of surfaces. It features a robust motor for consistent performance and a variable speed control system that allows users to optimize sanding for different materials. Designed with ergonomics in mind, it includes a precision belt tracking system and a dust collection bag to ensure a clean and comfortable working environment during extended professional or DIY use.

Key Performance Metrics

Performance Highlights

1010 W
Input Power

360 rpm
Max Speed

533 mm
Belt Length

Technical Specifications

Operating Voltage	110-120V or 220-240V~
Frequency	50/60Hz
No-load Speed	120~360rpm
Belt Size	76 x 533 mm

Features & Design

Core Features

- Variable speed control dial
- Precision belt tracking system
- Quick-release belt change mechanism
- Integrated dust collection bag
- Adjustable sanding arm
- Ergonomic handle design

Applications

Ideal Applications

Woodworking, Metalworking, Detail Sanding, Shaping, Finishing
