

Bench Grinding Wheel 5x3/4x1 Inch

This bench grinding wheel is designed for material removal and surface finishing. It is available in grit sizes 46, 60, and 100 and measures 5 inches in diameter, 3/4 inch in thickness, with a 1-inch arbor hole.

Overview

Professional Grade Bench Grinding Wheel

This high-quality aluminum oxide grinding wheel is engineered for efficient material removal and precise surface finishing. Designed for versatility, it is suitable for a wide range of applications including ordinary steel rough grinding, carbon steel, and malleable cast iron. With multiple grit options available, it serves as an essential tool for workshops and metalworking environments.

Dimensions

Diameter	5 in
Thickness	0.75 in
Arbor Hole	1 in
