

Bench Grinding Wheel 6 x 3/4 x 1 A36

This bench grinding wheel is designed for efficient material removal and surface preparation. The wheel has a 6-inch diameter, 3/4-inch thickness, and 1-inch arbor hole, and it uses A36 abrasive grit for general-purpose grinding.

Product Overview

Professional Bench Grinding Wheel

This high-performance bench pedestal grinding wheel is engineered for efficient material removal and precise surface preparation. Featuring an A36 abrasive grit, it is optimized for general-purpose grinding applications on both ferrous and non-ferrous metals. It offers an ideal balance between aggressive cutting action and extended wheel life, making it a reliable choice for sharpening tools, deburring, and shaping metal workpieces.

Dimensions

Diameter	6 inch
Thickness	0.75 inch
Arbor Hole	1 inch

Technical Specifications

Recommended Applications

- Rough grinding
- Tool sharpening
- Deburring
- Metal shaping

Abrasive Grit	A36
Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze

Compatibility

Compatible Equipment

Bench Grinders • Pedestal Grinders
