

Bench Grinding Wheel 8 x 1-1/4 x 1-1/4 Inch

This grinding wheel is designed for bench surface grinding. It has an 8-inch outer diameter, 1-1/4 inch thickness, and 1-1/4 inch inner diameter.

Product Overview

High-Performance Aluminum Oxide Grinding Wheel

This 8-inch bench grinding wheel is engineered for efficient material removal, shaping, and surface finishing. Crafted from high-quality Aluminum Oxide, it is specifically designed for rough grinding applications on various metals, including carbon steel, general steel, malleable cast iron, and hard bronze. Its robust construction ensures consistent performance in demanding workshop environments.

Dimensions & Specifications

Outer Diameter	8 inch
Thickness	1.25 inch
Inner Diameter (Arbor)	1.25 inch

Technical Details

Primary Usage

- Rough Grinding
- Material Removal
- Shaping
- Surface Finishing

Abrasive Material	Aluminum Oxide (23A)
Grit Size	46
Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
