Product Overview

Professional Benchtop Buffing Solution

This heavy-duty benchtop buffing machine is engineered for precision polishing and finishing of metal surfaces. Featuring a powerful motor and variable speed control, it provides consistent performance across a wide range of materials. Its sturdy construction ensures stability during operation, while integrated safety features protect users from debris, making it an ideal choice for metalworking, automotive restoration, and jewelry making.

Technical Specifications

Buffing Wheels	2 wheels
Wheel Material	Soft white fabric
Control Features	Variable Speed Control, Integrated On/Off Switch
