

Benchtop Drill Press

This drill press is a robust and precise machine designed for various drilling applications. Its sturdy construction ensures stability and durability for accurate drilling performance.

Product Overview

Precision Benchtop Drilling Solution

The ZJ4113B drill press is a robust and precise machine engineered for a wide range of professional drilling applications. Featuring a powerful motor and variable speed settings, it provides the necessary torque and flexibility to handle various materials and bit sizes with ease. Its sturdy construction ensures stability during operation, making it an essential tool for workshops, metalworking, and woodworking projects.

Performance Metrics

Key Performance Metrics

4113 B

Model Series

Technical Features

Speed Control	Variable speed settings for material-specific drilling
Worktable	Adjustable height and positioning for workpiece flexibility
Depth Stop	Yes

Safety & Compliance

Safety Equipment

- Chuck guard
- Emergency stop button
- Sturdy base for stability

Applications

Ideal Applications	Metalworking, Woodworking, Workshop, Precision Drilling
