

Benchtop Grinding Machine

This benchtop grinding machine is a versatile tool for sharpening, grinding, and polishing. It is equipped with two grinding wheels, adjustable tool rests, and integrated eye shields.

Overview

Versatile Benchtop Grinding Machine

This benchtop grinding machine is designed for efficient sharpening, grinding, and polishing of various materials. Featuring a robust motor and stable mounting design, it minimizes vibration during operation for precise control. Equipped with dual wheels and safety features like dust protection switches and eye shields, it is an essential tool for professional workshops and maintenance tasks.

Technical Specifications

Input Power	150 W
No-load Speed	2950 rpm
Voltage/Frequency	230V~50Hz, 120V~60Hz
Wheel Dimensions	150/200 x 16 x 12.7 mm

Features

Safety & Control

- Dust protection switch
- Integrated eye shields
- Adjustable tool rests
