

Benchtop Grinding Machine with Abrasive Wheels

This benchtop grinding machine is equipped with two abrasive wheels for grinding, shaping, and sharpening materials. It features adjustable tool rests for precise control and safety shields for operator protection.

Product Overview

Benchtop Grinding Machine

This benchtop grinding machine is designed for efficient grinding, shaping, and sharpening tasks in workshop environments. Equipped with dual abrasive wheels, it provides a stable and reliable platform for detailed material processing. The unit features adjustable tool rests for enhanced control and safety shields to ensure operator protection during use.

Technical Specifications

Input Power	150 W
Voltage	220-240V~50Hz
No-load Speed	2950 rpm
Abrasive Wheel Size	150 mm

Features

Key Features

- Dual abrasive wheels
- Adjustable tool rests
- Integrated safety shields
- Stable benchtop mounting design
