

Bent Nose Pliers with Ergonomic Handles

These bent nose pliers are designed with an advanced American type. They feature ergonomic green handles and a narrow jaw profile for precision work in confined spaces.

Product Overview

Professional Bent Nose Pliers

These advanced American-style bent nose pliers are engineered for precision tasks in tight and confined spaces. Constructed from durable materials, they feature ergonomic handles designed to reduce hand fatigue during extended use. This tool is an essential addition for professionals requiring reliable gripping, bending, and cutting capabilities.
