

Beverage Display Refrigerator with Glass Door

This is a compact display refrigerator ideal for showcasing beverages. It features a transparent glass door, interior shelving, and branded exterior graphics, suitable for retail and promotional purposes.

Overview

Compact Beverage Display Solution

This professional-grade beverage display refrigerator is designed for optimal product visibility and efficient cooling in retail environments. Featuring a clear glass door, it allows for effective merchandise showcasing while maintaining a consistent temperature range between 0 and 10°C. Its compact footprint makes it an ideal choice for countertop or point-of-sale placement where space is at a premium.
