

# Bicycle Bottom Bracket Cups with Ball Retainer

Bicycle bottom bracket cups featuring caged ball bearings. Sets are available in multiple configurations and sizes.

## Overview

### High-Performance Bicycle Bottom Bracket Cups

These bicycle bottom bracket cups are engineered for durability and smooth rotation, featuring integrated caged ball bearings for reliable performance. Available in multiple configurations ranging from 4-piece to 6-piece sets, they accommodate various bicycle assembly requirements. The standardized threading and precision-engineered bearing cages ensure a secure fit and long-lasting service life for professional cycling applications.

## Technical Specifications

### Bearing Configuration

**0.25 inch**

Bearing Size

**9 balls**

Ball Count

### Standard Threading

BC1.375" x 24T

## Model Comparison

### Model Specifications

Model Number	Components	Thread Details
YL-705	4 PCS	Left: 22un 24TL / Right: 23.2un 32T
YL-B31	5 PCS	BC1.375" x 24T
YL-B29	5 PCS	BC1.375" x 24T
YL-B20	5 PCS	BC1.375" x 24T
YL-B21	5 PCS	BC1.375" x 24T
YL-B22	5 PCS	BC1.375" x 24T
YL-B23	5 PCS	BC1.375" x 24T
YL-B24	6 PCS	BC1.375" x 24T
YL-B25	6 PCS	BC1.375" x 24T
