

Bicycle Front Derailleur

This front derailleur is precision-engineered for smooth and reliable shifting. It features durable construction and precise alignment for optimal chain engagement.

Product Overview

Precision Shifting Performance

This precision-engineered front derailleur is designed to deliver smooth and reliable shifting performance across a variety of terrains. Built with durable materials to ensure long-lasting use, it provides precise alignment for optimal chain engagement. It is a versatile component compatible with a wide range of bicycle drivetrains, making it an ideal choice for upgrading road, mountain, and hybrid bikes.

Technical Specifications

Key Performance Attributes

- Smooth and reliable shifting
- Durable construction
- Precise chain alignment
- Responsive gear changes

Component Category

Drivetrain • Front Derailleur

Compatible Bicycle Types

Road Bike, Mountain Bike, Hybrid Bike
