

Bicycle Front Derailleur

This bicycle front derailleur is designed for smooth and reliable shifting. It features durable construction, ensuring optimal chain alignment and precise gear changes for enhanced cycling performance.

Product Overview

Precision Shifting Performance

This bicycle front derailleur is engineered for smooth and reliable gear transitions, making it an essential component for multi-speed drivetrains. Its durable construction features a high-quality chrome finish, ensuring longevity and resistance to wear. Designed with versatility in mind, it offers broad compatibility with various frame types and crankset configurations, while the user-friendly design facilitates straightforward installation and adjustment for optimal cycling performance.

Technical Specifications

Key Benefits

- Smooth and reliable shifting
- Optimal chain alignment
- Precise gear changes
- Easy installation and adjustment

Finish	Chrome
Compatibility	Multi-speed drivetrains, Various frame types, Various crankset configurations
