

Bicycle Handlebar Stem

This bicycle stem connects the handlebars to the bicycle's steerer tube. It is constructed from aluminum alloy for strength and durability, suitable for BMX or freestyle bikes.

Product Overview

High-Performance Bicycle Stem

This bicycle stem is engineered for reliable performance and durability, featuring a robust construction of chrome-plated alloy components. Designed with a middle hole configuration, it provides a secure and stable connection between your handlebars and the steerer tube. Its sturdy build makes it an ideal choice for demanding cycling applications such as BMX or freestyle riding.

Technical Specifications
