

Bicycle LED Headlight

This bicycle headlight features dual LED lamps for enhanced visibility during night rides. It is constructed with a durable housing and includes a handlebar mounting bracket.

Product Overview

High-Performance Bicycle Headlight

This high-intensity bicycle headlight is designed for professional and recreational cyclists who prioritize safety and visibility. Featuring dual XML-XPG LED lamps, it delivers a reliable 650 lumens of output suitable for night riding. The rugged construction, combining aluminium alloy and ABS, ensures durability, while the IP65 rating provides excellent protection against the elements.
