Product Overview

Durable Bicycle Pedal Set

This bicycle pedal set is engineered for reliability and performance, constructed from high-impact resistant plastic to withstand daily use. Featuring integrated reflectors for enhanced visibility and a textured surface for superior grip, these pedals ensure a safe and efficient riding experience. Designed with a standard 9/16" spindle thread, they offer broad compatibility for recreational and commuting bicycles.

Technical Specifications

Model Number	DM-FP806
Material	High-impact resistant plastic composite
Bearing Type	Ball bearing
Spindle Thread	9/16 inch

Features

Key Features	Integrated Reflectors, Textured Surface, High-Impact Resistant, Standard Compatibility
--------------	--

Usage

Recommended Use

- Recreational cycling
- Daily commuting
- General purpose riding
