

Bicycle Rear Derailleur

This bicycle rear derailleur is designed for smooth and precise gear shifting. It features a durable construction with a metal cage and a plastic body.

Overview

Precision Gear Shifting

This bicycle rear derailleur is engineered to deliver smooth and precise gear shifting across various drivetrain configurations. Featuring a robust construction with a durable metal cage and resilient body, it is built for long-term reliability. Designed for both performance and ease of maintenance, this component is an essential upgrade for maintaining optimal cycling efficiency.

Technical Specifications

Adjustment Features

- Tension adjustment screw
- Cable attachment point

Compatibility

Various bicycle types • Multiple drivetrain configurations

Construction Materials

Metal Cage, Plastic Body
