

Bicycle Rear Derailleur

This rear derailleur is designed for bicycles with multi-speed drivetrains. It allows for smooth shifting between different gears on the cassette.

Product Overview

High-Performance Rear Derailleur

This rear derailleur is engineered for smooth and reliable gear shifting across multi-speed drivetrains. Featuring a robust black body and distinctive red jockey wheels, it combines durability with efficient chain movement. Designed with an integrated index system, it ensures precise gear changes for a superior riding experience.
