

Bicycle Rear Derailleur

This bicycle rear derailleur is designed for smooth and precise gear shifting. It features durable construction with a lightweight alloy body and steel cage and is compatible with various multi-speed drivetrains.

Product Overview

Designed for Reliability

This bicycle rear derailleur is engineered to deliver smooth and precise gear shifting for a variety of cycling applications. Constructed with a lightweight alloy body and a durable steel cage, it offers an optimal balance of weight and longevity. It is a reliable choice for recreational and entry-level multi-speed drivetrains, ensuring consistent performance on every ride.
