

Bicycle Rear Derailleur Gear Shifter

This bicycle rear derailleur is a crucial component for shifting gears on the rear cassette. It features a durable construction with adjustment screws for fine-tuning shifting precision and a robust cage to protect the jockey wheels.

Overview

Precision Drivetrain Performance

This rear derailleur is engineered for smooth and reliable gear shifting across the rear cassette. Featuring a durable construction with a sleek silver finish and black accents, it ensures optimal chain alignment and efficient power transfer. The unit includes integrated adjustment screws for precise fine-tuning and a robust cage design to protect the jockey wheels during operation.

Technical Specifications

Durability Features

- Robust cage construction
- Protective jockey wheel housing
- Precision-engineered shifting mechanism

Component Type	Rear Derailleur
Finish	Silver, Black Accents
Adjustment Features	Yes

Performance Metrics

Performance Highlights

1 High Shifting Reliability	1 Optimal Chain Alignment
