

Bicycle Safety Light

This bicycle light provides enhanced visibility and safety during nighttime or low-light conditions. It features a robust housing and secure mounting for easy attachment to bicycle handlebars.

Product Overview

Reliable Bicycle Safety Lighting

This compact and durable bicycle safety light is designed to enhance visibility during nighttime or low-light cycling conditions. Featuring a robust ABS housing and a secure mounting system, it provides a focused beam for optimal road illumination. It is an ideal solution for commuters and recreational cyclists who prioritize safety and being seen by motorists and pedestrians.

Technical Specifications

Housing Material	ABS
Bulb Type	2.4V/0.75A bulb

Power & Performance

Burning Time

3 h

Runtime
