

# Bicycle Shifter Lever Set

This bicycle shifter lever set is designed for precise gear shifting on classic or retro bicycles. It features dual-cable operation, metal construction, and thumb-operated levers with rubber grips.

## Product Overview

### Reliable Gear Shifting Performance

This bicycle shifter lever set is designed for durability and precise gear control, making it an excellent choice for retro or classic bicycle builds. Constructed from high-quality alloy, these friction-style levers provide a tactile and responsive shifting experience. The set comes complete with all necessary cables and casings, ensuring a straightforward installation process for 18 to 21-speed drivetrains.
