Overview

High-Performance Bicycle Hubs

These bicycle hubs are engineered for durability and consistent performance across various cycling applications. Constructed with high-quality S45C axle material, they are designed to withstand rigorous use while maintaining smooth operation. Available in a wide range of configurations, including different spoke hole counts and axle dimensions, these hubs offer the versatility needed for custom wheel building and maintenance.

General Specifications

Available Colors	Silver, Red, Yellow, Blue, Black, Purple
Spoke Hole Configurations	28H, 32H, 36H, 40H
Gauge	14G
