Product Overview

Biometric Security Solution

The P9/P9BF fingerprint padlock offers a modern, keyless security solution utilizing advanced biometric recognition technology. Designed for durability and convenience, this padlock eliminates the need for physical keys or combinations, ensuring fast and accurate access for authorized users. Its robust construction and rechargeable battery make it a reliable choice for securing lockers, cabinets, gates, and luggage.

Technical Specifications

Key Features

- Keyless biometric access
- Fast and accurate sensor
- Low-power consumption design
- Tamper-resistant casing
- Multi-fingerprint storage

Unlock Method	Biometric Fingerprint
Power Source	Rechargeable via USB
Construction Materials	Zinc Alloy, Stainless Steel, Hardened Steel

Applications

Suitable Applications

Lockers • Cabinets • Gates • Luggage
