

Black Electrical Insulation Tape

Electrical insulation tape provides insulation and protection for wires and cables. It is made of F-PVC with a dielectric strength greater than 40 Kv/mm and elongation greater than 125%.

Product Overview

Professional Electrical Insulation Tape

This high-quality electrical insulation tape is designed for reliable protection and insulation of wires and cables. Featuring a durable matt PVC film backing with a rubber-based adhesive, it offers excellent resistance to abrasion, moisture, and chemicals. Its flame-retardant properties and high dielectric strength ensure safe and secure electrical connections in various professional applications.

Technical Specifications

Dielectric Strength

40 Kv/mm

Dielectric Strength

Tape Dimensions

Dimension	Value
Width	19 mm
Length	20 m
Thickness	0.13 mm

Material & Performance

Matt PVC Film, Rubber-based Adhesive, Flame Retardant, Abrasion Resistant, Moisture Resistant

Operational Environment

Temperature Ranges

- Storage Temperature: +10°C to +40°C
- Operating Temperature: +5°C to +50°C

Elongation

125 %

Packaging & Logistics

Packaging Details

- 12 pieces per pack
- 72/288 pieces per case
