

Black Laser Printer Drum Unit DR-350 Compatible

This drum unit is compatible with laser printers. It transfers toner onto the paper to produce high-quality black text and images.

Product Overview

Premium Remanufactured Drum Unit

This premium remanufactured black drum unit offers a reliable and cost-effective alternative to original components. Engineered to ensure consistent performance, it facilitates high-quality text and image transfer for laser printing applications. Designed for professional environments, this unit provides long-lasting durability while remaining an environmentally conscious choice for your printing fleet.
