

Black Rectangular HVAC Vent Grille

This vent grille is designed for HVAC systems. It features a robust construction with vertical slats and a secure mounting frame.

Product Overview

Professional HVAC Vent Solution

This durable black rectangular vent grille is engineered for efficient air circulation in both residential and commercial HVAC systems. Featuring a robust construction with precision-aligned vertical slats, it ensures optimal airflow while maintaining a clean, professional appearance. The secure mounting frame allows for straightforward installation, making it a reliable choice for facility maintenance and climate control projects.

Physical Characteristics

Color	Black
Shape	Rectangular
Design Features	Vertical Slats, Secure Mounting Frame, Robust Construction

Installation & Application

Application	Residential • Commercial
Mounting Method	Screw-in
