

# Black Steel Blade Shovel with D-Grip Handle

This shovel is designed for gardening and landscaping. It features a durable black-coated steel blade for digging and moving soil, sand, and other materials.

## Product Overview

### Professional Grade Black Steel Shovel

This robust gardening and landscaping shovel is engineered for heavy-duty tasks involving soil, sand, and various landscaping materials. It features a durable, black-coated steel blade that ensures longevity and efficient material displacement. Designed with a user-centric D-grip handle and a sturdy wooden shaft, this tool provides the perfect balance of comfort, control, and physical strength for demanding outdoor projects.

## Technical Specifications

Blade Material	Black-coated steel
Handle Type	D-Grip
Shaft Material	Wood

## Usage & Applications

Application Areas	Gardening, Landscaping, Soil Preparation, Transplanting, Planting
-------------------	---

## Key Features

### Performance Benefits

- Enhanced control via D-grip handle
- Reduced hand fatigue during operation
- High durability with black-coated steel
- Balanced design for strength and flexibility
