

Black Winter Motorcycle Riding Gloves

These motorcycle winter gloves are designed for protection and warmth during cold weather conditions. They feature reinforced knuckles, padded fingers, a waterproof membrane and extended adjustable cuffs.

Product Overview

Winter Performance & Protection

These black motorcycle winter gloves are engineered to provide superior protection and warmth in challenging cold weather conditions. Combining durable leather with advanced synthetic materials, they feature reinforced knuckles and padded fingers to ensure maximum impact resistance. A specialized waterproof and windproof membrane keeps hands dry, while extended cuffs with adjustable straps create a secure, airtight fit for long-distance comfort.
