

Block-Type LDPE Plastic Bag with Punched Holes

These transparent plastic bags are designed for block-type applications. They feature pre-punched holes for easy attachment and organization.

Product Overview

Block-Type LDPE Plastic Bags

These block-type plastic bags are engineered for efficient industrial and commercial packaging. Featuring pre-punched holes, they allow for convenient attachment and organized storage, making them ideal for machinery parts and hardware. Constructed from a durable blend of LDPE, LLDPE, and PP materials, these bags provide reliable protection while maintaining visibility of the contents.
