

# Blue PVC Layflat Irrigation Hose

This blue PVC layflat hose is designed for water transfer and irrigation. Its layflat design ensures easy storage and transport.

## ADDITIONAL IMAGES

## Product Overview

### Professional Irrigation Solutions

This blue PVC layflat hose is engineered for efficient water transfer in demanding agricultural, construction, and industrial settings. Constructed from premium PVC materials, it provides exceptional resistance to abrasion, chemical degradation, and UV exposure. The space-saving layflat design ensures convenient storage and transport, while the reinforced internal structure maintains high flow rates and pressure resistance for reliable performance.

## Technical Specifications

|              |  |
|--------------|--|
| Material     | High-quality PVC   |
| Key Features | Abrasion Resistant, Chemical Resistant, UV Resistant, Low Stretch, Long Life |

## Application Suitability

### Suitable Applications

- Agricultural Irrigation
- Construction Dewatering
- Water Pumping Systems
- General Water Discharge

## Quality Standards

### Certifications & Standards

ISO9001 • TS16949:2002
