

Blue Step-Through Gas Scooter with Rear Storage

This is a scooter-style motorcycle with a step-through frame, ideal for city travel. It features a front fairing, integrated headlight and turn signals, and a rear storage box.

Product Overview

Urban Commuting Solution

This blue step-through gas scooter is designed specifically for efficient urban commuting and city navigation. Featuring a user-friendly step-through frame and integrated front fairing, it provides a comfortable riding experience for professional use or personal transport. The inclusion of a rear storage box and front license plate holder makes it a practical choice for various commercial and delivery applications.
