Product Overview

Comprehensive body composition analysis with Tuya App integration and curve trend tracking.

Smart Body Composition Analysis

This high-precision smart body composition analyzer provides a comprehensive view of your health by measuring over 13 vital body metrics. Utilizing advanced BIA biometric technology and four precision strain gauge sensors, it delivers accurate data directly to your smartphone via the Tuya-powered Bluetooth interface. Its sleek, portable 280x280mm design features a durable tempered glass platform, making it an ideal professional-grade tool for personal fitness tracking and weight management.

Technical Specifications

Maximum Capacity	180 kg
Graduation/Division	0.1 kg
Physical Dimensions	280 x 280 x 22 mm
Platform Material	5mm tempered glass
Power Requirements	3 x AAA batteries (included)

Features

Integrated Features

Bluetooth connectivity, Tuya App compatible, Auto-on/off, Overload indication, Low battery indication
