Product Overview

High-accuracy ITO glass scale featuring BIA biometric technology and comprehensive app integration.

Advanced Body Composition Analysis

This smart body composition scale utilizes advanced ITO (Indium Tin Oxide) glass technology to provide highly accurate measurements beyond simple weight. Featuring Bluetooth 4.0 connectivity, the scale seamlessly syncs with the dedicated mobile app to track over 18 essential body health indicators. Designed for convenience, it includes automatic connection, multi-user support, and compatibility with popular fitness platforms like Google Fit and Apple Health.

Technical Specifications

Maximum Capacity	180 kg
Measurement Division	100 g
Scale Dimensions	319 x 319 x 24 mm
Power Source	4 x AAA batteries (included)
Sensors	4 precision strain gauge sensors

Features & Connectivity

Connectivity

Bluetooth 4.0 • Auto Connection

App Features

- Multi-User & Guest Mode
- Graphic Data Trends
- Social Media Sharing
- Google Fit & Health Kit Synchronization

Body Metrics

Health Indicators Tracked

Weight, BMI, Body Fat %, Water %, Muscle Mass, KCAL, Bone Mass, Protein Rate, Metabolic Age, Visceral Fat

Design & Display

Display

LED display with white digits

LED Segment Height

28 mm

Platform Material

6mm ITO Tempered Glass

Smart Functions

Step-on Technology, Auto-off, Overload Indication, Low Battery Indication
