

# Bluetooth Body Composition Scale with ITO Tempered Glass

This smart scale features a durable ITO tempered glass platform and measures various body composition metrics. It connects via Bluetooth to sync data with smartphones and supports multiple users.

## ADDITIONAL IMAGES

## Product Overview

### Smart Body Composition Scale

This advanced body composition scale features premium ITO tempered glass and high-precision sensors for accurate health tracking. It utilizes Bluetooth and Wi-Fi connectivity to automatically sync comprehensive metrics like weight, body fat, muscle mass, and BMI to a dedicated mobile application. Designed for the whole family, it supports multiple users and provides clear, long-term health monitoring with intuitive data visualization.

## Technical Specifications

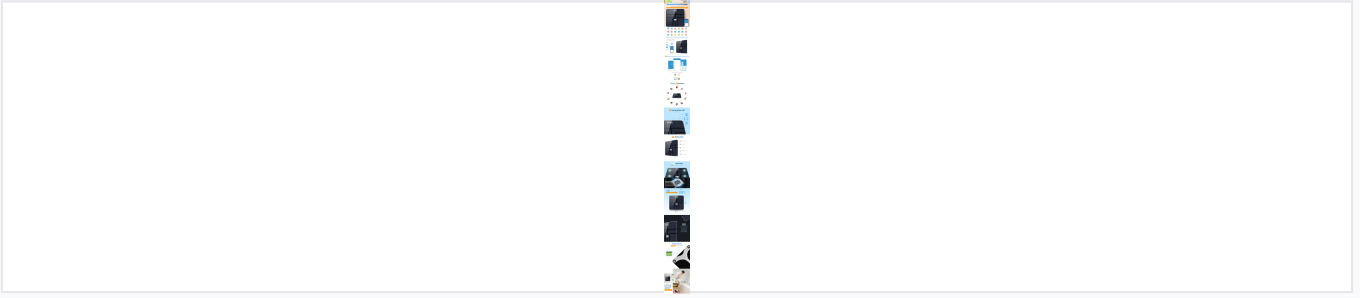

Dimensions	300 x 300 x 21 mm
Capacity	180 kg
Graduation	100 g
Power Requirements	3x AAA batteries (included)
Display	LED with blue backlight

## Measurement Metrics

### Metrics Analyzed

- Weight
- BMI
- Body Fat Percentage
- Water Content
- Muscle Mass
- Bone Mass
- KCAL
- Visceral Fat Grade
- Protein
- Physical Age

## Smart Features

Intuitive app integration showing body composition trends and multiple user support.

### Key Features

- Automatic data transfer to app
- Multi-user family sharing
- Trend curve analysis
- Step-on technology
- Auto-off feature

### Connectivity

Bluetooth, Wi-Fi

## Certifications and Standards

### Compliance

CE • RoHS
