Product Overview

Smart Body Composition Analysis

This Bluetooth-enabled body composition scale offers a comprehensive approach to health monitoring, providing detailed metrics beyond simple weight. Utilizing advanced BIA biometric technology and four precision strain gauge sensors, it delivers consistent accuracy for body fat, muscle mass, water content, and more. Designed for convenience, the scale features a clear white LED display, ergonomic rounded corners, and seamless app integration for tracking progress across multiple users.

Technical Specifications

Weight Capacity	180 kg
Measurement Division	0.1 kg
Scale Dimensions	280 x 280 x 22 mm
Platform Material	5mm tempered glass
Power Supply	3 x AAA batteries (included)

Features & Connectivity

High-precision BIA technology and app integration for detailed health tracking.

Smart Features

- Auto step-on
- Auto power-off
- Overload indication
- Low battery indication
- Multi-user support (up to 8 users)

Display Type	LED with white digits
Connectivity	Bluetooth, iOS Compatible, Android Compatible

Metrics Analysis

Available Metrics

Category	Metrics
Standard	Weight, BMI, Body Fat %, Water %, Muscle Mass, Bone Mass, KCAL
Advanced	Muscle Rate %, Protein Rate %, Metabolic Age, Visceral Fat, Fat Mass, Protein Mass, Obesity Level
