Product Overview

Professional Body Composition Analysis

This Bluetooth-enabled smart scale offers a comprehensive health monitoring solution for professional and home use. Constructed with 6mm tempered glass and equipped with four high-precision strain gauge sensors, it provides accurate measurements for up to 18 different body metrics. The seamless integration with the Dr. Weight app allows for multi-user tracking, data visualization, and synchronization with major health platforms like Google Fit and Apple Health.

Key Performance Metrics

Core Capabilities

180 kg

Max Capacity

100 g

Graduation

18 metrics

Body Values

Physical Specifications

Scale Size	300 x 300 x 24 mm
Platform Material	6mm Tempered Glass
Display	LCD with White Digitals

Technical Features

Sensor Technology	4 High-Precision Strain Gauge Sensors
Bluetooth Version	Bluetooth 4.0
Power Supply	3 x AAA Batteries (Included)
Operational Features	Step-on Start, Auto-off, Overload Indication, Low Battery Indication, BIA Technology

App & Data Tracking

Comprehensive body composition analysis with mobile app integration and high-precision sensor technology.

Measured Parameters

- Weight (kg/lb/st)
- BMI (Body Mass Index)
- Body Fat Percentage
- Water Content %
- Muscle Mass & Rate
- Bone Mass
- Basal Metabolism (KCAL)
- Visceral Fat
- Metabolic Age
- Protein Rate & Mass
- Obesity Level

App Functionality

- Auto-connection
- Multiple User & Guest Modes
- Graphic Data Tables
- Social Media Sharing (Facebook/Twitter)
- Sync with Google Fit & Health Kit

Compatibility

iOS • Android • Google Fit • Apple Health
