

Bluetooth Karaoke Array Speaker with LED Lighting

This Bluetooth karaoke array speaker features USB/TF, FM radio, and aux inputs. It has a sound-controlled LED light and a built-in karaoke function with DSP sound effects.

Overview

Professional Karaoke Array Speaker System

This high-performance Bluetooth Karaoke Array Speaker combines a powerful 12-inch subwoofer with a vertical array module to deliver clear, detailed sound across a wide frequency range. Designed for versatile entertainment, it features integrated sound-controlled LED lighting and a built-in DSP for professional-grade audio effects. Whether for live performances or karaoke sessions, the system offers comprehensive connectivity including guitar and microphone inputs with TWS support.
