

Bluetooth Lighting Dimmer

This compact device controls dimmable lighting fixtures via Bluetooth connectivity. Its aluminum enclosure includes a mounting bracket, push-button switch, integrated antenna, and ventilation holes.

Product Overview

Bluetooth Lighting Dimmer

The Bluetooth Lighting Dimmer is a versatile and compact solution designed for precise control of dimmable lighting fixtures. Housed in a durable aluminum enclosure, this device is engineered to withstand outdoor environments, making it ideal for pubs, gardens, and smoking areas. It offers seamless integration with smart systems, allowing users to adjust lighting via Bluetooth connectivity, while also featuring manual push-button controls for convenience.
