

Bluetooth Turntable with Stereo Speakers

This 4W turntable plays vinyl records at three speeds. It has Bluetooth connectivity and integrated stereo speakers.

Overview

Classic Vinyl Meets Modern Connectivity

This 3-speed stereo turntable offers a seamless blend of traditional vinyl playback and contemporary convenience. Designed for versatility, it supports 33 1/3, 45, and 78 RPM records, ensuring compatibility with your entire collection. With built-in Bluetooth and an integrated stereo speaker system, this unit provides an all-in-one audio solution for home listening without the need for external amplifiers.
