

BMX Bicycle with 20-inch Wheels

This BMX bicycle features a sturdy steel frame with a red and black color scheme. It is equipped with standard BMX handlebars and a padded seat for comfort.

Product Overview

Built for Durability and Performance

This 20-inch BMX bicycle is expertly designed for young riders who value both style and reliable performance. Featuring a robust steel frame construction, the bike ensures long-lasting durability through rigorous riding conditions. Its combination of comfortable seating and high-response caliper braking makes it an ideal choice for both daily practice and recreational use.
