

Bottle Heat Shrink Wrapping Machine

This bottle heat shrink wrap machine provides efficient packaging for bottles using heat to create a secure seal. Featuring a conveyor system and adjustable settings, it ensures consistent and professional packaging for various bottle sizes.

Overview

Industrial Bottle Shrink Wrapping Solution

This high-efficiency heat shrink wrapping machine is engineered for the secure packaging of various containers, including pop-cans, glass bottles, and PET bottles. Designed for industrial reliability, it features a continuous conveyor system that ensures consistent, tamper-evident seals for food, beverage, and pharmaceutical applications. The machine offers versatile operation with adjustable settings to accommodate a wide range of product sizes, enhancing productivity and packaging quality.

Machine Performance

Packing Speed

10 packs/min

Max Packing Speed

10 m/min

Max Delivery Speed

Compatible Packing Films

PE, POF, PVC, PP

Technical Specifications

Power Requirements

- 3 Phase 220V/380V, 50-60Hz
- 3 Phase 220V/380V/460V, 50-60Hz

Power Ratings

3 KW

Machine Power

20 KW

Heating Tube Power

Air Pressure

0.6 mpa

Capacity & Dimensions

Packing Size Range

Metric	Min (LxWxH)	Max (LxWxH)
Dimensions (mm)	250 x 50 x 100	420 x 300 x 350

Film Specifications

590 mm

Max Film Width

0.25 mm

Max Film Thickness

Tunnel Dimensions (LxWxH)

1500 x 600 x 400 mm
