Product Overview

High-Efficiency Weighing Solution

This modular weighing scale is specifically engineered for bottled products to ensure maximum productivity and operational efficiency in industrial environments. Featuring a robust SUS304 stainless steel construction, the unit is built for hygiene and durability while providing high-speed accuracy. The system includes an intuitive 10-inch touch screen with 200 product preset functions, allowing for rapid and simple product changeovers.

Performance Specifications

Key Performance Indicators

1000 g

Max Capacity

150 pcs/min

Throughput

1 g

Accuracy (3 \bar{A})

Technical Details

Technical Data

Parameter	Value
Weighing Range	3g - 1000g
Minimum Scale	0.1g
Touch Screen Size	10 inches
IP Rating	IP-65
Material	SUS304 Stainless Steel
Product Preset Slots	200

Power Requirements

AC 200V - 240V (Customizable for 110V/380V)

Dimensions and Handling

Equipment Dimensions	2000mm (L) x 750mm (W) x 1360mm (H)
Weighing Section Belt	300mm x 130mm

Compliance and Features

Interface Languages <ul style="list-style-type: none">• Chinese• English• Turkish• Spanish	
Compliance and Standards	CE, ISO 9001
