

Bottom Feed Spray Gun

This spray gun is designed with a bottom-mounted canister for easy refilling. It features an adjustable nozzle and trigger mechanism.

Product Overview

Professional Bottom Feed Spray Gun

This durable suction feed spray gun is designed for demanding applications requiring the use of dense materials. Featuring a robust 1-liter aluminum reservoir and an adjustable nozzle, it offers the versatility needed for applying sound-deadening paints and heavy coatings. Its reliable construction ensures consistent performance in professional workshop environments.

Technical Specifications
