

# Bottom Loading Hot and Cold Water Dispenser

This bottom-loading water dispenser provides both hot and cold water. It eliminates the need to lift heavy bottles, offering a convenient and safe hydration solution.

## Product Overview

### Bottom-Loading Convenience

This standing water dispenser features a convenient bottom-loading design, eliminating the need to lift heavy 3-5 gallon water bottles. Built with an elegant, innovative aesthetic, it integrates seamlessly into professional environments. The system utilizes a high-efficiency compressor for cooling and a stainless steel inner vessel to ensure water hygiene and longevity.

## Performance Metrics

### Hot Water Capacity

**5 L/h**

Hot Water Output

**95 °C**

Max Temperature

### Cold Water Capacity

**2 L/h**

Cold Water Output

**10 °C**

Min Temperature

## Technical Specifications

### Power Requirements

- Voltage: 220-240V / 110-127V
- Frequency: 50Hz / 60Hz
- Heating Power: 550W
- Cooling Power: 100W

### Refrigerant

R134A • R12

## Design & Construction

### Bottle Size Compatibility

3 to 5 Gallon

### Materials

Stainless Steel Tank, Food Grade Material

## Logistics

### Container Load Capacity

Container Type	Quantity
20' FCL	210
40' FCL	434
40' HQ	434

**Packaging Dimensions** 380 x 330 x 1060 mm

**Gross Weight** 16 kg
