

# Bottom Loading Hot and Cold Water Dispenser

This bottom loading water dispenser offers convenient access to hot, cold, and room temperature water. It accommodates standard 3- or 5-gallon water bottles, concealed in the cabinet for a streamlined appearance.

## Product Overview

### Modern Bottom Loading Dispenser

This bottom loading water dispenser features a sleek, modern design with a clean white finish, designed to fit seamlessly into any household or office environment. By concealing 3 or 5-gallon water bottles within the cabinet, it maintains a tidy aesthetic while offering convenient access to hot, cold, and room temperature water. The unit is engineered for both durability and safety, featuring a stainless steel reservoir and an integrated child safety lock on the hot water tap.
