

Bottom Loading Water Dispenser with Hot, Cold, and Room Temperature Options

This bottom-loading water dispenser provides hot, cold, and room temperature options. It accommodates 3 or 5-gallon water bottles and includes a child safety lock on the hot water tap.

Overview

Convenient Hydration Solution

This bottom-loading water dispenser offers a seamless way to access purified water in home or office environments. Designed with a sleek stainless steel finish and durable black accents, it provides versatile temperature options including hot, cold, and room temperature water. The bottom-loading mechanism eliminates the need to lift heavy bottles, while the integrated child safety lock ensures safe operation for all users.
