

Bow Saw with Green Frame

This bow saw is designed for cutting wood and other materials. The frame provides tension to the blade, allowing for efficient cutting.

Product Overview

Professional Bow Saw

This bow saw features a durable green frame and a sharp, toothed blade engineered for efficient cutting of wood and various other materials. The frame design ensures proper blade tension, facilitating smooth and controlled operation during use. Its ergonomic handle provides a secure grip, making it a reliable tool for diverse tasks in woodworking, landscaping, and construction environments.

Design & Build

Frame Color	Green
Primary Applications	Woodworking, Gardening, Construction
Handle Type	Ergonomic secure grip
