

Bow Saw with Steel Frame

This bow saw features a tubular steel frame and tensioning mechanism for the blade. It is equipped with an ergonomic handle for a comfortable grip and controlled cutting.

Product Overview

Professional Bow Saw

This bow saw is designed for efficient cutting tasks in woodworking, gardening, and construction environments. It features a durable red tubular steel frame equipped with a reliable tensioning mechanism to keep the blade secure. The ergonomic handle is finished in black and yellow, ensuring a comfortable grip and superior control during heavy-duty cutting operations.
